

Women In STEM Empowerment

W.I.S.E

Our Goals as a Club

- **Build a community** that **supports** Women in STEM, helps Women in STEM **feel welcomed** and have a sense of **belonging**
- **Empower Women in STEM**- with the help of each other and allies, to have our **voices heard**
- Connect students to **role models** and **successful women** in the industry through networking, conferences and other professional events and activities

What will we do to reach those goals?

- **Educate others** about the **struggles** Women in STEM face, and what they can do to help **alleviate** those struggles
- Hold **professional development workshops** such as resume writing, interview simulation/ preparation, negotiating salaries
- **Advertise on campus** (club rush/ posters) and work with other clubs to **grow the community**, and **raise awareness**

continued...

- Fundraise to be able to attend **Conferences** such as Women In Engineering, Society of Women Engineers, Women in Tech Summit, and Women in Science, Engineering and Medicine.
- **Network** with professionals in the field, to meet and mingle and gain knowledge of their experience

Quote that we stand by:

“Empowered Women^{*}
empower women”

* and allies
