The next PBC meeting will look at remaining resources, has already reviewed the 1st level requests. This is all dependent on budgets available. This process is going slower than expected because of the COVID-19 transition. Max says that his has been more streamlined and is close to being the tightest possible process, in his experience as a reviewer. Ruth asked about the anticipated end to the process, Max indicated that it should be next meeting. But since things have been changing quickly, it might get shifted. This is a priority for them.</p> <p>Max Hartman discussed the Program Review Task Force. The group created a list of ideas for changes:</p>

Mission Statement

- EW, Pass/No Pass, Refunds (Ruth and Ariackna)

evening and there are opportunities to have 1 on 1 meetings. There are new pages for high school students, especially for our concurrently enrolled students. PEP will be held online via Zoom. They will be able to talk to counselors and learn information about the Guided Pathways Interest Areas. There is still more work to be done with our website, but we're doing a work in process. Post cards are being sent to incoming students as well as webinar style for Connect to College May 14th.

Ruth emphasized that WE is live as of April 14th. Student can get the WE which shows up different on their transcript and allows them to get some reimbursement. Pass/No Pass is an availability for students to put on Websmart up until the end of the class. No Fs will be given, instead it will show up as No Pass. There are new welcome letters for exempt and non-exempt students, this was lead by Max. Max mentioned that this year we've eliminated the requirement of a registration ticket for a registration date. It will automatically be done for these students. The rest of the steps are still the same. Exempt students have fewer steps. These letters are also available in English and Spanish. For now these letters will not be mailed, until we are back on campus. This is meaningful for students, though so it will be sent along with Interest Area information. There will be a drop for non-payment of fees. The cashier's office is working on a process where students can pay their fees in cash at a bank. Manuel discussed the return to Title IV. We are not holding students responsible for returning funds who have withdrawn due to COVID-19. Ruth mentioned that students with a W will be taken care of and retroactively cleared. Candice asked what the length of time is to do this drop. Ruth said its 5-7 business days. Max mentioned that the drop date goes away if you have completed financial aid process. Ruth mentioned other groups are dropped as well. You can get that from her.

For those students for whom the only mean of payment is cash, we have arranged to process such payment by visiting one of the five Union Bank branches located within our District boundaries:

Instructions for processing such cash payment will be provided to students directly upon contacting Cashiering Office (information to contact Cashiering Office will be posted online) who will then forward to students detailed information as to what information will need to be included on bank's deposit slip (sample will be provided in email as well).

Cashiers will enter a new code(s) to temporarily lift either hold or drop for non-payment to allow for sufficient time to process cash payment by the bank. We agreed that 10 working days is sufficient for this transaction. Students will receive an email reminder to pay the balance on their account so they are not dropped from classes.

As we work through this challenging time we would like to request that Cashiers are the only staff that use the new code(s) to lift hold or drop for non-payment as this will help District Office and colleges with reconciliation between bank and student accounts should any issue surface.

<ul style="list-style-type: none"> • Community Market (Adolfo) 	<p>Adolfo gave an update on the community market. This week is the 4th. We have served over 1700 families. There will be an update to the flyer saying weekly, and we can serve about 700 families each time. There are volunteers and managers can help these families sign up. The items given are pantry, refrigerated, and fresh produce. Its an opportunity to get healthy nutritious foods. Manuel mentioned that this is a huge process and gave kudos. He also mentioned that the majority of families served are Spanish speaking and it shows our disproportionately impacted communities.</p> <p>Manual mentioned we are in conversations to have translation services. This means that everyone can get the same level and quality of service. Max says that this is a shift of a change in our priorities and thanks to the changes in the major disruption to our services. Adolfo mentioned that messaging and tone is very important. There are many ways of saying things and making it uniform is extremely helpful.</p> <p>Adolfo brought up the Food Grants that there are 300 students 75-100 gift cards. Each college has its own pool for their students. This gives them the opportunity to support their families and shop at Safeway.</p>

<ul style="list-style-type: none"> • Communications (Manuel) 	<p>Manuel wants us to expect the best but prepare for the worst. This means that we should prepare to serve and support students and not be caught off guard if this remoteness continues.</p>
<ul style="list-style-type: none"> • CARES Act Funding 	<p>Manuel provided a Cares Act funding, emergency relief funds. It was discussed at the most recent Town Hall, which provides 50% of funds for students. It is based on Pell Eligibility and the Presidents, VPs, directors of financial aid, and others are looking at the formulas to support these students. The hope is to get the policy out asap. It would provide cash aid to students and there should be certain amounts and levels per semesters. There will not be support for undocumented, international, or fully online students. We will find some level of support for these students in some way, shift resources, and support our communities. This</p>

New students will begin to be brought in through the new success navigator process through success teams. It will close the loops on a lot of areas that new incoming students were missed.</p> <p>Heads-up from Max</p> <p>Our college is doing great outreach efforts and individual programs are also working hard.
